

Ministerstvo dopravy

Information

- Name: **Ministerstvo dopravy**
- Author: **Erik Vaněk**
- School: **SPŠE Ječná**
- This is a 4th grade project on programming subject
- The real-world usage here is non-existent, although it was fun-ish doing it
- The checklist for submitting the project wants me to include bunch of diagrams, I'll not do that
- Testing diagrams are in **tests/scenarios** folder
- Database export is located in **doc/** folder

Installation:

- Export the project into a folder
- Open XAMPP and start Apache & MySQL
- Open a webbrowser and go to **localhost/phpmyadmin**
 - Select Import tab
 - Select a file **doc/ministerstvodopravy.sql**
 - Click on Import
- Open CMD
 - Go to directory where the project is with **app.js**
 - Execute command inside CMD **node app.js**
- The server is running
- Open a webbrowser and go to **localhost:3000**

Dependencies:

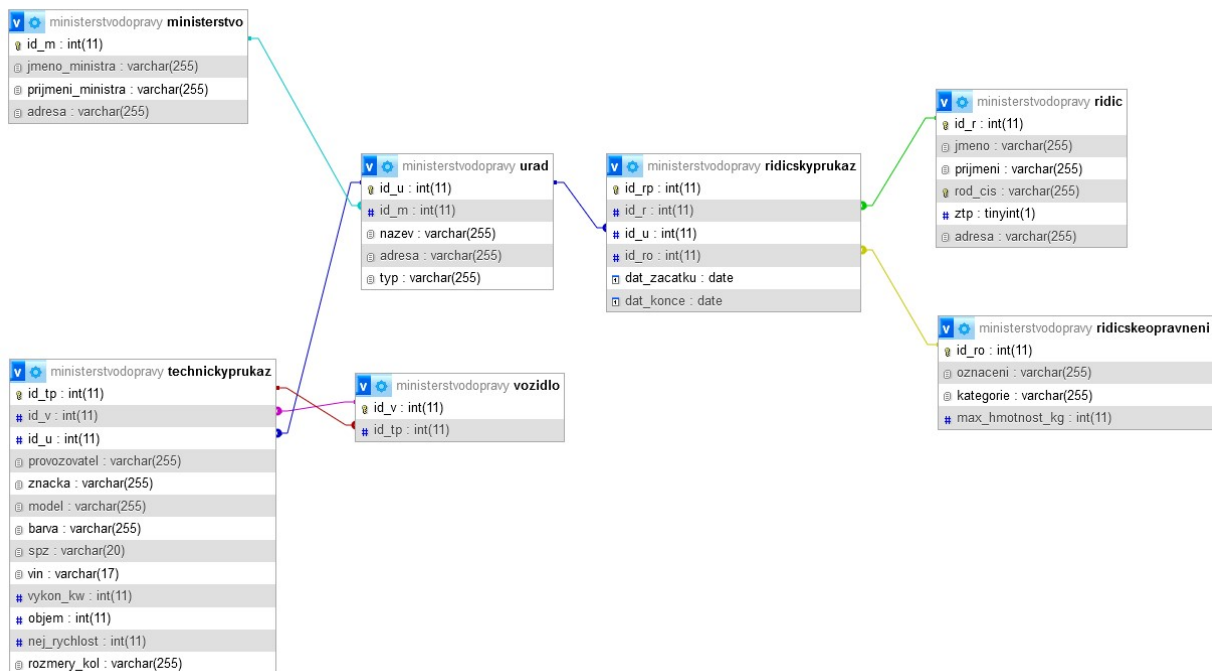

- There are multiple npm packages that will be needed to run the project
- Install all of the following packages:
 - **body-parser**
 - **ejs**
 - **ejs-lint**
 - **express**
 - **multer**
 - **mysql**
 - **router**

Errors:

- When something goes wrong a small text will appear at the top of the screen what went wrong

Database:

- Database export: [doc/ministerstvodopravy.sql](#)
